

VALLOGGIA Maxime

Research engineer internship

In order to complete my fourth year of my engineering cycle, I have to do a 10-week internship abroad.

That is why I am speaking to you in the hope of a possible internship opportunity within your company. Do not hesitate to contact me for more information.

WORK EXPERIENCE

Alpen'Tech | 2018-

Apprentice mechanical engineer

Apprenticeship within Alpen'Tech (machining company).

Industrialization and ramp up of new parts (production, quality and cost optimization). Organization and robotization of production line. Documentation for working operators.

Thales Alenia Space | April - June 2017

Validation of machining parameters of plastic materials for satellite solar panels, CAD and documentation for working operators
10 weeks internship to validate the technician diploma.

DUT projects | 2015 - 2017

- Pocket Bike project : mechanical performance improvement. Skills in mechanics, communication, team management.
- Project : Design and production of a miniature motorized boat.

Group projects S-SI and ISN | 2014 - 2015

- Realization of a miniature elevator including motion and overload sensor, and automatic doors. Skills in CAD, design, automation, electronics and mechanics.
- Programming a graphic game (space invader)

EDUCATION

Master's Degree in Engineering by apprenticeship | 2018 -

Polytech - Annecy

General Engineer training for industrial techniques. Mechanics, Automatics, Materials, Energetics, Industrial and company management, Project management, Management

DUT in Mechanical and Production Engineering | 2015 - 2017

IUT Paul Sabatier - Toulouse

Aerospace Technical Specialty.

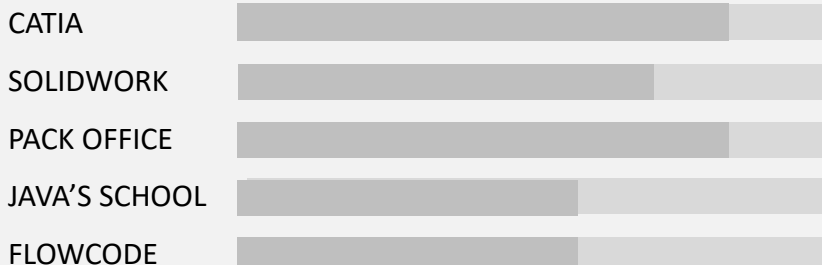

Design, material science and calculation, production methods, production management, quality, composite materials, project management

Scientific high school diploma (A-Level) | 2012 - 2015

High school Jean Pierre Vernant - Toulouse

Scientific Baccalaureate and Engineering Science. Computer Option and Digital Science
